REMARKS

25X1X

From 24 January to 2 February 1953, the Artillerie Kaserne on the Oder Island, Kuestrin, was occupied to capacity. Instruction on 6 x 37-mm AT guns was almost daily seen in the western training area, and instruction on 85-mm AA guns was seen in the eastern training area. On 25 January, about 12 x 37-mm AA guns were seen in the west section and, on 18 January, 16 x 85-mm AA guns and 4 canvas-covered devices in the southeast section. About 50 to 60 soldiers drilled in the southeast section. On 28 January and 2 February, about 24 soldiers received instruction on 4 machine guns on tripods in the meadow southwest of the installation. On 28 January, about 120 soldiers left the installation toward Reitwein. A telephone line was being strung in the same direction. From 24 January to 2 February, firing of rifles and carbines was daily heard from the firing range.
